- Waste oil and paint•Tillers•Gas cylinders
- Medical equipment•Pesticides and other chemicals
- Batteries

Waste generated by business activities such as shops, restaurants, hospitals, agriculture, and fishing. Refers to large amounts of trash generated temporarily due to events like moving.

Waste generated from business activities other than industrial waste must not be placed at garbage collection points. You must either take it directly to the Relay Center or Environmental Center yourself, or entrust its disposal to a licensed waste hauler.

The city will not collect them. Please consult with your retailer.

Request from the city

1. Please check the garbage collection calendar and put out your trash on the designated collection day.
2. Please keep the area around designated garbage stations clean so as not to cause any inconvenience to your neighbors.
3. Please put out your trash by 8:00 AM on collection day. Do not put it out the day before. (Cats and crows will scatter it, making the area around the station dirty.)
4. Whenever possible, have your home appliances, bicycles, etc., collected when you buy new ones.
5. Small appliances can also be collected in collection boxes located at the main office and each branch office.

⚠ No illegal dumping ⚠
Illegal dumping is punishable by law.

- "Major examples"
- Placing non-collected waste at the waste collection point
 - Placing waste outside the designated waste collection point
 - Failing to observe collection days
